

FF Natur

Organic protein supplement for salmon farming

FF Natur is a nutritious fish meal product that is targeted at organic salmon farming. It is used in one of the world's most discerning and salmon consumer-oriented industries, namely the Norwegian.

FF Natur is the closest you can get to salmon's natural food in taste and nutritional values. Made from herring and filleting waste from the herring industry - totally compliant with the requirements for sustainability and welfare. Only natural antioxidants are added to make FF Natur the perfect protein supplement in a balanced and ecological feed compound.

FF Natur is primarily supplied in bulk as larger batches - guaranteed salmonella-free.

Deklaration:	
Protein	65 - 68 %
